## How Can EMAS help to get your project going?

### Project Design Expertise

You know the people and with them you have identified the need. By partnering with an organization that has been working in Christian health care related projects around the world for over 60 years, you can avoid many of the common pitfalls.

### Income Tax Deductibility for Donations

Every EMAS project must be financially self-supporting. Donor interest is higher if charitable income tax receipts are available for donations.

### What does EMAS need from You?

A project proposal which states:

- Reason for the project with goals and objectives.
- Who will benefit and in what way.
- How the goals and objectives will be met.
- How funds will be raised to support the project.
- Personnel needs.
- A timetable for the project.
- Partners in the project.
- Method of evaluation.

**EMAS has been helping Christian medical work around the world for over 60 years. This wealth of experience lends credibility to fundraising efforts as well as providing a pre-existing network of donors and medical professionals called to overseas missions.**

---

## What EMAS Does

If, after review of the project proposal, the EMAS Board agrees to become a partner with you, we will:

- ♦ Provide experienced counsel about how best to achieve the goals and objectives outlined in your proposal.
- ♦ Pray for you and those working with you.
- ♦ Provide accounting services. Issue income tax receipts.
- ♦ Facilitate visa applications for the country in which you work.
- ♦ Promote your project among the constituency of EMAS supporters who have interests and skills applicable to the project.
- ♦ Assist with travel and shipping arrangements.

---

## Sector Experience

Along with our ability to issue income tax receipts for project related expenses, we have the experience and ability to comply with all Canadian government regulations surrounding development work overseas. Increasingly specialized, the labyrinth of regulations governing charitable work is difficult to negotiate independently and you can spend many hours finding your way. EMAS has been involved in several joint-projects with other Christian NGOs over the years and has built a network of contacts with resources that may be helpful in realizing your project's goals.

EMAS is governed by a Board of Directors.

Audited annual financial statements are available upon request.
